A light golden color; this is a viscous honey packaged in a glass apothecary jar.

### Flavor

Strong aroma of orange blossom. Sweet, persistent citrusy and floral flavor with a subtle acidity.

### Key Points

This raw single varietal honey comes from Murcia in southeastern Spain. Our producer's coop members collect honey from bees that feed in orange blossom groves. The resulting honey has delicate hints of the flower's aroma and a citrusy flavor, making it versatile for many pairings.

### Handling

Store in a cool, dry place away from direct sunlight. Honey may crystallize naturally. If it hardens, heat at moderate temperature.
